

ERIC LAWRENCE WINNICK

The Modernist

Eric Lawrence Winnick is a man attuned to his surroundings. A New York transplant, he's come to embrace our city's Art Deco and midcentury styles in both his innovative home designs and personal fashion choices. "I'm classic with a twist," he says. "And I almost always wear blue." At work, Winnick's straightforward modern aesthetic and signature whimsical surprises on home design have garnered him an impressive list of projects from New York and The Hamptons to The Rockies and beyond. His approach to interiors is based around one main tenet: integrating his clients' lifestyles into the look of their homes in a manner that's sophisticated, organic and elegant yet comfortable. He's a tailor of décor, if you will. "I don't like it when designs are too ornate," he explains. "I love the use of clean and simple lines with some splash of color." True to his word... and his wardrobe.
